## **Empowering Our Next Generation of Leaders**

**Oakland, CA** - Empowering the next generation of young leaders is something that Premier Strategies, Inc. takes great pride in supporting. That is why we are pleased to announce our recent partnership with the Junior State of America.

The Junior State of America was founded in 1934, and has served as a place where students build leadership skills, learn civil debate, and strengthen their engagement through volunteering and activism. In the student-run, student-led Junior State of America (JSA), participants learn how to engage civilly in political discourse. They cultivate democratic leadership skills, challenge one another to think critically, advocate their own opinions, develop respect for opposing views and learn to rise above self-interest to promote the public good. As a nonpartisan, nonprofit organization, JSA is committed to developing a diverse, cross-section of young leaders for a democratic society.

Through this partnership, Premier Strategies is able to offer direct campaign and legislative opportunities to students across the northeast. From high profile campaign experiences to working and interning alongside elected officials, Premier looks forward to working with our next generation of leaders and helping them to further their commitment to civic engagement.
